CROC CLIPS

MRP : **325** /- (Inclusive of taxes)

Made from high-quality ABS plastic, which is known for its robustness, ensuring the clips are long-lasting and resistant to breakage.

Equipped with a double-hinged design that provides a firm and secure grip, capable of holding large sections of hair without slipping or loosening.

The ABS plastic is heat-resistant, making these clips safe to use during blow-drying and styling with hot tools.

Resistant to chemicals commonly found in hair products, ensuring the clips remain functional and intact over time.

Ideal for sectioning hair during cutting, coloring, styling, and blow-drying, making them a versatile tool in any hair professional's kit.

Professional Series

SECTION CLIPS

MRP : **295** /- (Inclusive of taxes)

Made from high-quality ABS plastic, known for its strength and durability, ensuring the clips can withstand frequent use without breaking.

Designed with a firm and secure grip to hold even thick and heavy sections of hair in place without slipping.

ABS material is resistant to heat, making these clips suitable for use during blow drying and styling with hot tools.

Designed for easy and comfortable handling, with a spring mechanism that opens and closes smoothly.
